

Re: Updated USHBC Blueberry Supplier Guide

To answer specific requests for a list of highbush blueberry suppliers a USHBC Blueberry Supplier Guide has been developed. The guide appears in a downloadable format on the USHBC website and is also distributed directly to potential blueberry users as requested.

Handlers and Grower/Handlers, who are interested in a listing, must complete a USHBC Supplier Guide Worksheet and send a completed and signed copy of the worksheet back to the USHBC office. Data from the worksheet will be added to the USHBC Blueberry Supplier Guide and posted on the USHBC website. Suppliers are listed in alphabetical order by state.

Once listed in the guide, a supplier will remain listed each year, or until they specifically request to be removed from the guide. Those currently listed in the 2004 guide will continue to be listed in the 2005 guide.

Contact information and types of products offered and noted in the listing are the responsibility of the supplier. **It will be the responsibility of the supplier to contact the USHBC should there be any necessary changes or updates to their listing.**

Please contact the USHBC office at 916-983-0111 if you have any questions concerning the USHBC Supplier Guide.
